03 Kundali harmony

Five classical lenses on how these two charts meet (close orbit). Each lens is scored out of its own weight, and the five weights add up to 100. Special links then add or take away a few points.

Close orbit

Kundali harmony 84 of 100, before the Lo Shu blend.

Strongest lens: Mental friendship · **Watch:** Life approach (Lagna)

Emotional rapport **24**/30

Same Moon sign: you feel things the same way. Deep understanding, sometimes mirrored moods.

Mental friendship **20**/20

Moon-sign lords Saturn and Saturn are friends: conversations flow easily.

Shared fortune (Tara) **20**/20

Birth stars support each other: you bring each other luck.

Temperament (Gana) **15**/15

Both Manushya gana: temperaments in tune.

Life approach (Lagna) **8**/15

Earth and Fire risings: different styles that can learn from each other.

A Sun–Moon link adds 5 points, a Lagna–Moon link or a Jupiter blessing adds 3, and Saturn on the Moon takes away 3.

Special links

Cross-chart contacts that strengthen or test the bond.

- **Saturn on the Moon:** one may feel restricted or judged by the other. Lead with warmth.

04 Guna Milan (Ashtakoota)

The traditional 36-point marriage compatibility check. Eight kootas are scored from each person's Moon sign and birth star and add up to 36.

Manglik status

Aarav Mehta ▲ Manglik

Mars sits in house 2 from Moon. Traditionally matched with another Manglik chart, or balanced by remedies.

Meera Mehta ● Not Manglik

Mars is not in houses 1, 2, 4, 7, 8 or 12 from the Lagna or Moon: no Manglik dosha.

Doshas

Each one checked with its classical exceptions.

Nadi dosha — ◐ Cancelled

Cancelled: both Moons are in Uttara Ashadha but in different padas (2 and 4).

Bhakoot dosha — ● None

Moon signs sit well with each other: no Bhakoot dosha.

Mangal dosha — ▲ Active

One chart is Manglik and the other isn't: traditionally matched with care or balanced by remedies.

WITH THE DOSHAS ▲ Acceptable, with a dosha to weigh

28 of 36 passes, but the Mangal dosha is active. Families usually look at these closely, or at remedies.

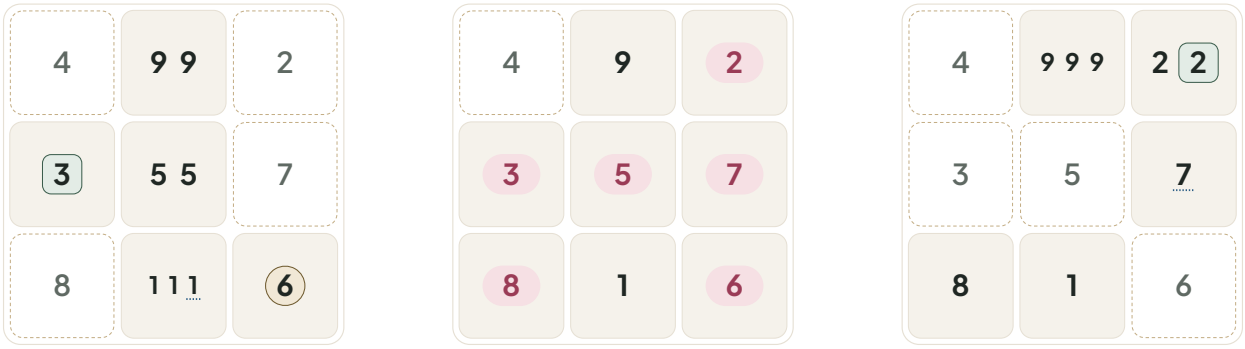

Nadi is cancelled when both Moons share a sign but not a nakshatra, share a nakshatra but not a sign, or share a nakshatra in different padas. Bhakoot (Moon signs 2/12, 6/8 or 5/9 apart) is cancelled when the two Moon-sign lords are the same or friends. Mangal is balanced when both charts are Manglik, and cancelled for one chart when Mars is in its own or exalted sign or joined by Jupiter.

06 Good periods for the partnership

Both of you are already married, so these are the supportive periods for the partnership, from each chart's marriage reading.

Marriage in each chart

AARAV MEHTA

Marriage 63 ● Supportive

A good marriage is indicated, with mutual support and steady growth together. Jupiter, lord of the 7th, is well placed in the 10th and Venus (the wife) is exalted. On the other hand, Manglik dosha is present, so matching charts carefully matters and Saturn's aspect on the 7th slows things down.

Already married: this describes the tone of the partnership and its supportive periods.

BEST PERIODS

Jupiter–Jupiter · Jan 2029 – Feb 2031

MEERA MEHTA

Marriage 54 ◐ Mixed

Marriage brings both support and lessons; communication and patience keep it strong. Saturn, lord of the 7th, is in its own sign and Jupiter's aspect protects the 7th. On the other hand, Saturn, lord of the 7th, sits in the 6th, so results need extra effort and the 7th has low Ashtakavarga support (21 points).

Already married: this describes the tone of the partnership and its supportive periods.

BEST PERIODS

Jupiter–Jupiter · Sep 2028 – Oct 2030

When both charts agree

DATES	AARAV'S PERIOD	MEERA'S PERIOD
Jan 2029 – Oct 2030	Jupiter–Jupiter	Jupiter–Jupiter

Love and romance

AARAV MEHTA

Love & romance 63 ● Supportive

A warm romantic life with genuine connections. Saturn, lord of the 5th, sits in its own house, so this area supports itself and Venus (love) is exalted. On the other hand, Rahu in the 5th adds pressure.

BEST PERIODS

- **Rahu–Moon · Jun 2026 – Dec 2027 · now**
- Jupiter–Saturn · Feb 2031 – Sep 2033
- Saturn–Saturn · Jan 2045 – Jan 2048

MEERA MEHTA

Love & romance 42 ▲ Needs care

Love asks for patience: attractions may be complicated or slow to settle. Jupiter, lord of the 5th, is well placed in the 1st and Jupiter's aspect protects the 5th. On the other hand, Venus (love) is debilitated and Rahu in the 5th adds pressure.

BEST PERIODS

- Jupiter–Jupiter · Sep 2028 – Oct 2030

Timing comes from each person's own chart. Muhurta (an auspicious date and time for the ceremony itself) is a separate, day-level choice.

07 About this report

How the figures in this report were worked out, and how to read them.

- ✓ Both charts are sidereal (Lahiri ayanamsa) with whole-sign houses, calculated on this device. Without a birth time, a chart is cast for noon and its Lagna is approximate.
- ✓ Kundali harmony weighs five lenses: emotional rapport (Moon signs, 30), mental friendship (Moon-sign lords, 20), shared fortune (Tara, 20), temperament (Gana, 15) and life approach (Lagna elements, 15), then adds or takes away points for special links.
- ✓ Overall harmony blends 70% kundali with 30% Lo Shu, the mix set in the app.
- ✓ Guna Milan follows the traditional Ashtakoota scoring from the Moon sign and nakshatra, with the boy's chart first.
- ✓ Marriage periods come from each chart's life-area reading (dashas of the planets linked to marriage); windows add Jupiter, Saturn and Rahu transits over the next three years.
